

La Ballue Gardens

A few kilometers from Mont-Saint-Michel, the gardens of La Ballue are an enchanted universe for the visitors.

Inspired by 17th century Italian design, the mannerist garden is perfect for exploring, a labyrinth of green pathways... these paths lead the visitors through 13 surprises (the mystery grove to the music grove, from the fern arbour to the catch and the scented groves, to the green theatre...). A large pond with a beautiful collection of ducks, geese, cockerel and hens. Botanical collection of boxwoods (CCVS)

Gardens designed by the futurists François-Hebert Stevens and Paul Morand.
